Attn: Chemical Right-to-Know Program – Test Plan Submission from HERTG  
Registration Number

Dear Administrator Horinko:

The American Chemistry Council Petroleum Additives Panel (Panel) Health, Environmental, and Regulatory Task Group (HERTG) submits for review and public comments its test plan as well as related robust summaries for the Isooctadecanoic Acid Reaction products with TEPA (CAS # 68784-17-8) under the Environmental Protection Agency's High Production Volume (HPV) Chemical Challenge Program. The HERTG understands that there will be a 120-day review period for the test plan report and that all comments generated by or provided to EPA will be forwarded to the HERTG for consideration.

Thank you in advance for your attention to this matter. If you have any questions regarding the test plan report or the robust summaries, please contact Sarah Loftus McLallen at 703-741-5614 (telephone), 703-741-6091 (telefax) or [Sarah\\_McLallen@americanchemistry.com](mailto:Sarah_McLallen@americanchemistry.com) (e-mail).

Sincerely yours,

cc: HERTG members
